

## WIRELESS ACCESS AGREEMENT

The user \_\_\_\_\_ has been granted wireless access to system resources beginning with the 2006-2007 school year. This access allows use of a personal computer to access Internet resources on campus.

The user understands that the school's Internet access is filtered by the Archdiocese of New Orleans, our Internet provider. Although the school makes every attempt to maintain a secure network by the use of Symantec Corporate Anti-Virus and the registration of wireless users, any wireless environment may pose some risk to the individual users. The user assumes all responsibility for the personal computer equipment which he or she uses on campus.

As part of this agreement, the user agrees to the following stipulations when using a personal laptop:

1. The user will abide by the terms of the Archdiocesan Acceptable Use Policy as if the personal computer is a system computer on campus.
2. The user will maintain virus protection with definitions which are at least 1 week old.
3. The user will install all Windows critical updates as soon as they become available.
4. The user will notify the Technology Department when wireless access is no longer needed.
